

Syllabus for class 11 physics 2022-2023

First unit test

- Physical world
- Units and measurement
- Motion in a straight line

Second unit test

- Motion in a plane
- Law of motion
- Work ,power and energy
- Gravitation

Half yearly examination

- Gravitation
- Mechanical properties of solids
- First unit test and second unit test syllabus are included

Third Unit test

- Mechanical properties of fluids
- Thermal properties of matter
- Thermodynamics
- Behaviour of perfect gases and kinetic theory of gases

Annual examination

- Oscillation and waves
- All the topics from the first unit test, second unit test, half yearly examination , third unit test are included
