Dear Parents and Guardians,

Good wishes from Silver Point School!

In keeping with the heat wave conditions, we at Silver Point School have already adopted some protective measures:

1. Suspension of all outdoor activities until further notice.
2. Introduction of Water bells which will be rung ten minutes prior to the completion of a 40 minute period. This new bell will allow students to drink water! The decision will remind students to drink water to keep the body hydrated during the summer.
3. The PE classes will shift indoors but if any one has any health issue, they should let the PE teachers know immediately.

While we have already decided to switch on to the online mode of teaching for the students of classes Nursery to II until further notice, we want our students from classes 3 to 12 to be physically more resilient and capable of managing various environment and local weather conditions. Children not feeling well may not be sent to school and class teachers to be notified by an email.

Warm regards,

Dr. Anandha Gupta
Principal-in-Charge
